

Agreement of Cooperation
Between
Beijing Key Laboratory of Bio-Inspired Energy Materials and Devices
And
Cleantech Center at the Bar-Ilan Institute of
Nanotechnology and Advanced Materials

Beijing Key Laboratory of Bio-inspired Energy Materials and Devices ("BKL BEMD") and Cleantech Center at the Bar-Ilan Institute of Nanotechnology and Advanced Materials ("CCBINA") hereby enter into an agreement of cooperation, made as of the 26 day of July, 2016, to establish a program of collaboration in areas of interest and benefit to both institutions.

I.

The purposes of the cooperation between BKL BEMD and CCBINA are as follows:

- to promote interest in the research activities of the respective institutions in the field of electro-chemistry related materials and technology, and
- to deepen the understanding at each institution of the corresponding engineering and industrial application.

II.

To achieve these goals, BKL BEMD and CCBINA may investigate opportunities in the following areas, insofar as the means of each allow:

- organize symposia, conferences, short courses and meetings on research issues;
- carry out joint research and continuing education programs; and
- exchange information pertaining to developments in research at each institution.

III.

Each department within the respective institutions desiring to participate in an exchange shall designate a coordinator to oversee and facilitate the implementation of this Agreement. The coordinators, working with other appropriate administrators at the respective institutes, shall have the following

responsibilities:

1. To coordinate the exchange of personnel between the two institutions.

DA

- to promote academic collaboration for research and study;
- to act as principal contacts for individual and group activities and to plan and coordinate activities for which cooperation with the partner institution is desired;
- to distribute to each institution information about the faculty, facilities, research, publications, library materials and educational resources of the other institution; and
- if deemed desirable, to meet periodically to review and evaluate past activities and to work out new ideas for future cooperative agreements.

IV.

This general Agreement of Cooperation shall be identified as the parent document of any program agreement executed between the parties. Further agreements concerning any program shall provide details concerning the specific commitments made by each part and shall not become effective until they have been reduced to writing and executed by the duly authorized representatives of the respective institutes. The scope of the activities under this agreement shall be determined by the funds regularly available at both institutions for the types of collaboration undertaken and by financial assistance as may be obtained by either institution from external sources. No specific financial commitment by either party is to be implied from this agreement.

V.

Upon approval by each institution, this agreement shall remain in effect until July 31, 2021, unless terminated earlier by either institution. Such termination by one institution shall be effected by giving the other institution at least ninety (90) days advance written notice of its intention to terminate. Termination shall be without penalty. If this agreement is terminated, neither BKL BEMD and CCBINA shall be liable to the other for any monetary or other losses which may result.
